LETTER FROM OUR CEO

At Black Castle Capital Partners, we established the firm with a clear objective: to provide investors with access to differentiated private market opportunities that are typically unavailable through traditional channels.

Over the past two decades in private capital, structured finance, and alternative assets, I have seen that many of the most compelling opportunities exist within operational supply chains, specialist financing markets, and early-stage innovation, areas where access is limited and structuring is critical.

Since founding Black Castle in 2017, our focus has been on identifying these opportunities and presenting them within disciplined, transparent investment structures. Across asset-backed strategies, real assets, and high-growth ventures, our approach remains consistent: clarity of structure, alignment of interests, and rigorous risk management.

Our focus is on the infrastructure of the real economy, where capital is deployed into activity, not speculation. This includes opportunities driven by the movement of goods, the scaling of businesses, and the development of emerging technologies.

We operate through a global network of operators, asset managers, and specialist partners, enabling us to originate opportunities across multiple jurisdictions and sectors. This allows us to identify investments shaped by real-world demand rather than market sentiment.

We view our role not simply as originating opportunities, but as building long-term partnerships with both investors and the businesses we support. Trust, consistency, and transparency remain central to everything we do.

As private markets continue to evolve, we believe that access, structure, and discipline will define investment outcomes. Our objective is to ensure that investors working with Black Castle Capital Partners are well positioned to benefit from that shift.

Richard Diaz

Founder & Chief Executive Officer
Black Castle Capital Partners

ABOUT BLACK CASTLE CAPITAL PARTNERS

Black Castle Capital Partners is a UK-based private capital platform headquartered in Mayfair, London, providing investors with access to carefully structured opportunities across private markets.

The firm operates at the intersection of institutional discipline and private market access, sourcing and structuring investments typically reserved for family offices, specialist funds, and institutional participants.

We focus on opportunities where returns are driven by underlying activity, whether through the movement of physical assets, the scaling of technology platforms, or the growth of private businesses.

"Genuinely aligned with our goals, they act as a true partner rather than a service provider, consistently adding value at every stage. Highly recommended."

EDD PROSSER-JONES
Director Veyco

"In my 30 years as a founder, having navigated two IPOs and raised over \$50m, I can say that Richard is the real deal. It is a rare quality for an investment partner to guarantee results and then consistently deliver them across the finish line. Throughout my career, I have never raised capital without having to pitch every penny myself; however, Richard and the team secured over £500,000 of our £1.35m founders' round without me having to deliver a single pitch. I highly recommend Richard and Black Castle Capital Partners as an investment partner without delay."

NIMESH PATEL
CEO Co-Founder Kabuni

"Richard and his team did everything they said they would. Helping us raise over £3m, dealing with all the investment pipeline and moving through funnel, to funds received. I would have no hesitation recommending Black Castle Capital Partners."

ANDY TAYLOR
CEO, GoZero

CORE AREAS OF FOCUS

ASSET-BACKED & INCOME STRATEGIES

Access to short-duration opportunities within global supply chains and trade finance markets, where returns are generated from contractual cash flows linked to real-world activity.

PRIVATE GROWTH & VENTURE INVESTMENTS

Exposure to high-growth companies across sectors including artificial intelligence, enterprise software, and digital platforms. Selected opportunities may qualify for UK EIS and SEIS tax-efficient investment schemes.

PROPERTY

We provide access to a wide range of property-based opportunities ranging from structured products through to outright property purchase focusing on the UK marketplace. We focus our efforts on establishing beneficial, long-term relationships with our clients, ensuring that you profit from our expertise.

CURATED PRIVATE MARKET OPPORTUNITIES

A highly selective pipeline sourced through a global network of founders, operators, and specialist partners across real assets, emerging sectors, and private equity.

Black Castle works with high-net-worth individuals, family offices, and sophisticated investors seeking access to opportunities beyond traditional public markets.

Each investment is developed with a focus on:

- clear, defined structures
- strong commercial rationale
- alignment between investors and operators
- disciplined risk management

Since its formation in 2017, the firm has built a reputation for providing access to differentiated opportunities supported by institutional-grade structuring and consistent execution.

WHY INVESTORS WORK WITH BLACK CASTLE CAPITAL PARTNERS

Black Castle Capital Partners provides investors with access to a curated range of private market opportunities supported by disciplined structuring, operational oversight, and global partnerships. In an investment landscape increasingly dominated by public markets and commoditised products, the firm focuses on identifying opportunities where private capital can generate differentiated returns. By combining institutional standards with entrepreneurial access, Black Castle enables investors to participate in opportunities that may otherwise remain unavailable outside of specialist networks.

INSTITUTIONAL APPROACH TO PRIVATE MARKETS

Every opportunity presented by Black Castle Capital Partners is developed with a focus on structural integrity, transparency, and investor alignment. The firm works alongside legal advisers, professional service firms, and specialist operators to ensure each opportunity is supported by appropriate documentation and governance. This disciplined approach allows investors to evaluate opportunities with a clear understanding of the underlying commercial structure.

GLOBAL RELATIONSHIPS

Black Castle operates through a network of partners across key international financial centres. These relationships provide access to opportunities originating across sectors including trade finance, technology, real assets, and private growth companies. By maintaining a global perspective and working with experienced operators, the firm is able to identify opportunities shaped by international economic trends and supply chains.

LONG-TERM INVESTOR PARTNERSHIPS

Black Castle Capital Partners works with a select group of private investors, family offices, and professional investors seeking access to differentiated opportunities across the private markets. The firm's objective is to build long-term partnerships with investors by consistently presenting well-structured opportunities supported by clear documentation and transparent communication. Through this approach, Black Castle seeks to provide investors with both access and confidence when allocating capital within private markets.

"I have to comment on a great experience I have had working with Black Castle Capital Partners. Not only do I get full information that is critical to any business investor, but the personal attention after investment and timely updates is reassuring and invaluable. I have now invested in multiple ventures during the past six months and am happy with the progress made by each Company."

CLIVE MARGETTS
Private Investor

"The team at Black Castle Partners have been nothing less than exceptional in providing professional services for alternative investments. They listen to you, are not overly pushy and ultimately your interests in successful investments are their interests. If you are successful they are successful!"

DONALD FRASER
Private Investor

"Richard Diaz and Black Castle Partners have been great to work with. I have total confidence in them and will continue to invest with them into the future."

PETER SPIRO

OPENING UP A WORLD OF CHOICE

Black Castle Capital Partners believes that the most compelling investment opportunities often exist beyond traditional markets. By combining disciplined structuring, global relationships, and access to private market opportunities, the firm provides investors with a gateway to a wider investment universe.
